Hello Gen Chorus Voice Support Team,

I am writing to appeal the termination of my account (@emilycvoice), which I received notice of on March 2, 2026.

I understand that I have had prior warnings (January 11 and February 5) about content that was reported as political in nature. I take those warnings seriously and have always intended to use this platform for civic engagement and community discussion in good faith.

The post that led to the termination was an accidental wrong-file upload. I was preparing a post about a city council meeting and transparent budget decisions, but I mistakenly selected a different image from my phone gallery when I uploaded the post.

I noticed the mistake within minutes and deleted the post. The image was not part of what I intended to publish, and I did not intend to encourage violence or violate the Community Guidelines.

I respectfully ask that my account be reinstated. I value the platform and will take additional care to make sure the content and images I publish match what I intend to post.

Thank you for taking the time to review my appeal.

Sincerely,
Emily Carter
