Verification Record

An identity-verification image was submitted during driver account onboarding and was accepted as the identity image associated with the account.

Identity Image Associated With Account

Account onboarding identity image.

Record Note

This image is the identity image associated with the driver's account for verification purposes. Later verification events may be compared with the identity image maintained on the account.

Sample Case Record: This document contains fictional account information and a synthetic fictional image created for use in a DecisionLayer arbitration sample case.
