Image Comparison

Account Holder Image (from onboarding)	**Captured Image** (June 14, 2026, 8:17 AM)
	
Daniel Reyes	**No Match**

Verification step	Required before the account may begin delivery activity for the day.
Account authentication	Successful
Liveness check	Passed
Face comparison	Failed — submitted face did not match account identity image
System action	Account flagged for review

System Note

Celeris Route requires this identity-verification step before delivery activity may begin for the day. The submitted image did not appear to match the identity image associated with the account. This record reports the verification result; it does not identify the individual shown or determine who entered or possessed the credentials used to access the verification function.

Record generated from Celeris Route identity-verification records maintained during ordinary platform operations. Synthetic fictional images and account data are used solely for this sample arbitration case.
