Date	Service activity	Reference / record	Status	Work recorded
Feb. 8	Pre-receipt inventory setup	VIS-IMS-260208-A	**Completed**	Expected quantities and receiving locations entered into t inventory-management workflow before shipment arrival.
Feb. 9	Receiving reconciliation support	VIS-IMS-260209-B	**Partially completed**	Receiving counts were entered and compared with expec quantities. A four-unit oil-filter variance remained open.
Feb. 10	Cycle-count / variance review	VIS-IMS-260210-C	**In progress**	Variance review was started. Final reconciliation remaine pending supplier shipment and packing information.

SERVICE RECORD NOTES

- The inventory-management service was scheduled under PO MFS-PO-260201 at a stated fee of $1,875.00.
- Pre-receipt setup was completed before the February 9 delivery.
- Receiving reconciliation was performed using Monterrey's receiving counts; the four-unit oil-filter variance remained unresolved as of February 10.
- The final variance review was not closed in this service record because supporting shipment and packing information was still being reconciled.
