Subject: Re: PO MFS-PO-260201 — Priority Delivery Request

Javier,

We can arrange priority handling for the February 9 delivery and will coordinate with our carrier to support the morning maintenance schedule you described.

At this stage, the order remains on the PO pricing and service terms. If the priority handling results in a separate logistics charge, we will send the amount and basis for review before the shipment leaves our facility.

I will provide the shipment reference after pickup.

Best,
Sofia Ramirez
