PRE-PO PRICING COMPARISON WORKSHEET — REVISED

Record No.: MFS-PROC-260130-PCW

Prepared: March 10, 2026

Reference: Valencia pricing communication dated January 30, 2026

Purchase Order: MFS-PO-260201 dated February 2, 2026

Purpose: Compare the pre-PO reference prices with the subsequently accepted PO

Status: Internal comparison only; not an amendment to the accepted PO

Product	Qty	Jan. 30 reference price	PO price	Difference	Comment
Heavy-Duty Brake Pad Sets	40	$160.00	$185.00	$1,000.00	Reference price is lower than the price stated in the accepted PO.
Fleet Oil Filter Assemblies	100	$35.00	$42.00	$700.00	Reference price is lower than the price stated in the accepted PO.
Hydraulic Hose Assemblies	30	$140.00	$165.00	$750.00	Reference price is lower than the price stated in the accepted PO.
Alternator Assemblies	15	$320.00	$395.00	$1,125.00	Reference price is lower than the price stated in the accepted PO.
Heavy-Duty Wheel Hub Assemblies	10	$350.00	$465.00	$1,150.00	Reference price is lower than the price stated in the accepted PO.

REFERENCE PRICE DIFFERENCE

$4,725.00

Calculation: $1,000 + $700 + $750 + $1,125 + $1,150 = $4,725.

This figure identifies the aggregate difference between the listed reference prices and PO prices.

DOCUMENTARY LIMITATION

This worksheet does not establish that the January 30 reference prices were incorporated into the final contract. The contractual effect of the earlier pricing communication must be considered with the underlying communication, the accepted PO, and the February 3 order confirmation.

Fictional case exhibit — created for the DecisionLayer arbitration simulation.
