PRICING COMMUNICATION — REVISED

Record No.: VIS-SALES-260130-PRC

January 30, 2026

From: Sofia Ramirez <sofia.ramirez@valenciaindustrialsupply.com>
To: Javier Torres <javier.torres@monterreyfleetsolutions.com>
Cc: Elena Castillo <elena.castillo@monterreyfleetsolutions.com>
Subject: February Fleet Maintenance Order — Pricing

Javier,

Following our discussion regarding Monterrey Fleet Solutions' February maintenance order, I am confirming the pricing currently being used by our sales team for the quantities you requested.

Based on the January 30 pricing worksheet, the product prices are as follows:

- Heavy-Duty Brake Pad Sets — 40 sets at $160.00 per set
- Fleet Oil Filter Assemblies — 100 units at $35.00 per unit
- Hydraulic Hose Assemblies — 30 assemblies at $140.00 per assembly
- Alternator Assemblies — 15 assemblies at $320.00 per assembly
- Heavy-Duty Wheel Hub Assemblies — 10 assemblies at $350.00 per assembly

Those product prices produce a product subtotal of $22,400.00. The inventory-management service discussed for the order is $1,875.00, bringing the indicated order amount to $24,275.00 before any separately applicable taxes or delivery charges.

Please use these figures for the order request while procurement completes the purchase-order process. If the final purchase order reflects different pricing or terms, please send it back to us for confirmation before the order is released.

Thanks,
Sofia Ramirez
Account Executive
Valencia Industrial Supply, Inc.

DOCUMENT STATUS

Pre-PO pricing communication. This record does not itself state that these figures amended or superseded the later accepted purchase order. Its contractual effect is to be considered with the Agreement, PO, and order confirmation.
