To: Sofia Ramirez <sofia.ramirez@valenciaindustrialsupply.com>
Cc: Elena Castillo <elena.castillo@monterreyfleetsolutions.com>
Subject: Re: February Fleet Maintenance Order — Pricing

Sofia,

Thanks for confirming the pricing. The figures below match the pricing our team has been working from for the February order.

For clarity, our current order request is:

- Heavy-Duty Brake Pad Sets — 40 sets at $160.00 per set
- Fleet Oil Filter Assemblies — 100 units at $35.00 per unit
- Hydraulic Hose Assemblies — 30 assemblies at $140.00 per assembly
- Alternator Assemblies — 15 assemblies at $320.00 per assembly
- Heavy-Duty Wheel Hub Assemblies — 10 assemblies at $350.00 per assembly

We also understand the inventory-management service discussed for the order to be $1,875.00. On that basis, our internal order estimate is $24,275.00 before any separately agreed delivery or tax amounts.

Please have your team confirm the order using these figures. If Valencia needs a purchase order reflecting different unit prices or service terms, please let us know before we issue the PO.

Regards,
Javier Torres
Operations Director
Monterrey Fleet Solutions, LLC

DOCUMENT STATUS

This communication records Monterrey's understanding before the purchase order was issued. It does not itself constitute the final PO or establish that any later PO price difference was accepted or rejected. The accepted PO and order confirmation remain separate records.
