Hi Hana Luxvita team,

Thank you for sending the August 10 working schedule. It is helpful to have the information in one place.

I have a few concerns before we move forward:

1. The photography arrival time, floral installation, and DJ setup are still listed as targets rather than confirmed times. I understand these depend on the vendors, but I need Hana Luxvita to obtain and consolidate those confirmations.

2. The schedule currently has the ceremony at 4:00 PM and reception at 6:00 PM, but I do not see a confirmed transition plan between the ceremony, photographs, and cocktail hour.

3. The floral section still refers to the spray-rose substitution. I would like to receive the final floral design before treating that item as approved.

4. Please confirm that the final schedule will also include the rehearsal timing, vendor contact information, and the responsibilities of the Hana Luxvita team on the wedding day.

I recognize that some items are controlled by the independent vendors. My concern is the coordination function: I hired Hana Luxvita so that I would not have to obtain and reconcile these details separately.

I am willing to wait for the August 24 confirmation cycle, but I would like these items documented as outstanding and addressed before the September 1 meeting.

I am still not cancelling at this time. I want to give Hana Luxvita the opportunity to complete the coordination work described in the package.

Thank you,
Sophia Bennett
