Date: August 18, 2026, 5:02 PM
Booking: EW-2026-1047

Hi Sophia,

Following your August 12 email, we contacted the photography, floral, and DJ providers to confirm the remaining timing information and update the working schedule.

CURRENT CONFIRMATIONS

- Hudson & Sage Photography has confirmed an 10:00 AM arrival and expects photography coverage to begin with preparation activities. The photographer is coordinating the exact portrait timing with the wedding-day schedule.
- Bloom & Sage has confirmed a 12:00 PM installation start, subject to venue access. The revised floral design remains the working design, with premium blush spray roses substituted if the requested blush garden roses remain unavailable.
- Rhythm & Beats has confirmed a 3:00 PM setup window and a 6:00 PM reception start. The DJ will coordinate sound-check timing with the venue.

COORDINATION ITEMS

Hana Luxvita has incorporated the current confirmations into the planning file. The ceremony-to-cocktail-hour transition will be addressed in the next working schedule together with the photography portrait period.

At this stage, the final guest count, final floral selection, and final venue access details are still outstanding. These items can affect the final timing.

We will provide the next consolidated schedule after the remaining vendor and venue confirmations are received. The September 1 final planning meeting remains scheduled.

We understand your concern about having one consolidated schedule and will continue to maintain that document rather than requiring you to reconcile separate vendor communications.

Best,
Hana Luxvita Planning Team
