FLORAL STATUS

Bloom & Sage has confirmed the revised design for the ceremony arch, head-table florals, and 15 reception centerpieces. The requested blush garden rose remains subject to availability. The premium blush spray rose is the confirmed substitute if the garden rose is unavailable. The final floral design sheet is expected before the September 20 walkthrough.

REHEARSAL / WEDDING-DAY COORDINATION

October 16 rehearsal coordination is scheduled. On October 17, Hana Luxvita will coordinate vendor arrivals, maintain the event timeline, assist with the ceremony-to-reception transition, and serve as the primary planning contact during the scheduled coordination period.

REMAINING ITEMS

• Final floral design sheet.

• Final venue-access confirmation for installation and DJ setup.

• Any final guest-count changes.

• Final family-photo list revisions, if any.

Unless one of these items materially changes the schedule, this document will serve as the consolidated planning schedule for the September 20 walkthrough.

Best,
